Wherever jews have been in recent times, they have been avid proponents of democracy, civil rights and anti-apartheidism. This is true in Europe, South Africa and the United States. The principal author of the civil rights act, and the immigration act of the 60's is no exception.

> Norbert A. Schlei, key lawyer in the Kennedy and Johnson administrations who found legal underpinning for the 1962 blockade of Cuba, wrote landmark civil rights legislation and once waged a strong bid to replace an entrenched Republican California secretary of state, has died. He was 73. Schlei was the principal draftsman of the Civil Rights Act of 1964, the Economic Opportunity Act of 1964, the Voting Rights Act of 1965 and the Immigration Reform Act of 1967.

Why are jews so insistent on democracy, voting rights, equal rights, immigration and civil rights? Because they know that these movements, which are all aspects of liberalism's human rights dogma, is the way to destabilize any blood and soil nation. Especially White countries, which are their direct competitor, due to Aryan supremacy and the global promotion and center of Christianity being in the West.
